

**DEPARTMENT OF TRANSPORTATION
STATE OF GEORGIA
REQUEST FOR RED LIGHT RUNNING PHOTO ENFORCEMENT SYSTEMS**

To the Georgia Department of Transportation:

The _____ of _____ in _____ County hereby request approval for the use of RLRPES at

Intersection

CONDITIONS OF APPLICATION AND STANDARDS OF OPERATION

In the event the Georgia Department of Transportation authorizes the use of RLRPES at the above location, the undersigned agrees to incur all costs to purchase and install the RLRPES. The full and entire costs of the electric energy and telephone service used to operate the RLRPES shall be at the expense of the local government without any cost to the Georgia Department of Transportation. Responsibility for any litigation involving the RLRPES will be assumed by the local government.

The local government is responsible for the operation and maintenance of the RLRPES as long as the system is in place. If the proposed location for a RLRPES falls within a current construction project being managed by GDOT, the Local Government Contractor approved for the system installation will coordinate any work and installation with GDOT's Project Manager and the Project Contractor for any installation or work activity. In no instance will the RLRPES contractor interfere with construction or cause delay to the project. Forty-eight (48) hours notice must be given to the District Traffic Engineer by the RLRPES contractor along with a list of materials proposed for installation for review and approval prior to any work within a current GDOT Construction project. Contractor work times on State Routes shall be in accordance with appropriate GDOT District recommendations.

The RLRPES must be installed to the Department's standards and conform to the *Guidance for Permitting Red Light Running Photo Enforcement Systems* issued by the Department and the provisions set forth therein.

The minimum yellow light change interval time shall be established in accordance with nationally recognized engineering standards, and any such established time shall not be less than the minimum recognized national standard and practices plus one (1) additional second [(Y +1)- see the attached formulas for yellow interval (Y)].

ANNUAL REQUIREMENTS FOR LOCAL GOVERNMENTS

Provide annual reports for the preceding calendar year on the RLRPES to be sent to the GDOT Office of Traffic Operations (Attn: State Traffic Engineer, 935 E. Confederate Ave, Blvd. 24, Atlanta, GA 30316) by February 1st of each year in accordance with Georgia Code 40-6-20.

INSPECTION AND APPROVAL

The installation, maintenance and operation of said RLRPES shall be subject at all times to inspection and approval by a duly authorized engineer of the Georgia Department of Transportation.

RIGHT TO REVOKE

The Georgia Department of Transportation will review all permits once every three (3) years from the date of issuance or date of the most recent extension unless the permit has been revoked or suspended by GDOT.

If it is determined by GDOT that the RLRPES should be removed, the local government will be responsible for the removal of all RLRPES equipment within sixty (60) days of the revocation of the permit, during which time the local government can appeal the revocation or suspension.

This application is hereby submitted and all of the terms and conditions are hereby agreed to. The undersigned are duly authorized to execute this instrument.

This, the _____ day of _____ 20____
